## REVIEW OF MARKETS FINANCIAL AND COMMERCIAL

## Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

New York, Jan. 11.-To-day's stock market was characterized by consider-vible speculative activity on the part of the bear contingent. The raid, how-ever, was restricted to a small number the bear contingent. The raid, however, was restricted to a small number of stocks, all among the specialties, including the older high-priced industrials. There was postitive demoralization in these active stocks, in contrast to the fairly firm undertone of the general list, and especially the railroads. The attack on the Industrials was due to the attitude of the president of the American Sugar Refining Company, Other stocks were marked up briskly at the opening in face of the violent break in Sugar, but the bears met this manouvre with such confident heavy selling that the Specialties successively crumbled in price and fell through a storm of dislodged stop loss orders. Even the railroad list was affected at last and carlier gains generally wiped out. The only prominent railroad out. The only prominent railroad stocks in which the net declines reached a point were Baltimore and Ohio. Burlington and Quincy, Missouri Pacific, Pennsylvania and Delaware and Hudson. Lackawanna declined two points. The raily before the close reduced all net declines in the railroads to fractional limits and restored fractional gains in some cases. The course of Sugar was extremely erratic and feverish all day. At the low level it was over eight points below last night, and 24 below the low level in the December panic. Its net loss is five points. All of the New York traction and lighting shares were severe sufferers, Metropolitan showing an extreme decline of 9½, Brooklyn Rapid Transit 6 and Third Avenue 6½. The Gas stocks, Manhattan, People's Gas, Tobacco, Federal Steel, Sugar, preferred, and Tennessee Coal were off from 8 to 4½.

The borrowing demand for Sugar sent it to a premium in the loan crowd before the close. A large preponderance of the total dealings was made up by The leading futures ranged as follows:

The borrowing demand for Sugar sent It to a premium in the loan crowd before the close. A large preponderance of the total dealings was made up by this group of specialties. At no level of prices was there any activity in rall-road stocks. The strength in foreign markets on the reduction in the official discount rates of the Bank of England and the Bank of France was reflected to this market, and foreign arbitrage brokers were good buyers until prices rose above parity.
